Important reminders:

- For travelers with flights departing from Seoul (PR 469), Busan (PR 419) and Taipei (PR 895) on June 15 will arrive at NAIA Terminal 1, please advise our passengers that if they have an old, or travel agency issued tickets with travel dates from June 16 onwards, check if the new terminal assignment is indicated. These tickets may no longer reflect the correct terminal for their flight. Please reprint our passengers' tickets as soon as possible to ensure that they are checking in at the correct terminal.

- For travelers with flights departing from Manila (MNL) to Guangzhou (PR382) and Seoul (PR466) on June 16, please advise our passengers that they may check-in as early as 4 hours prior to their scheduled departure time in Terminal 1. Ensure to remind them of the correct terminal to check-in for your flight. In case they arrive at the wrong terminal, shuttle buses for inter-terminal transfers will be available. Our PAL staff will be available to assist passengers arriving at Terminal 2 for transfer to Terminal 1.

Please visit the [PAL's Airport Terminal page](#) and [Connecting flights](#) for more information.

3. Enter the details of your travel and your email address
4. Enter your personal details and sign a health declaration form to complete registration
5. Wait for your QR code to be generated then download and print/save a digital copy.
6. Present your QR code upon check-in prior to your departure or during the BOQ verification upon arrival.

GUIDELINES FOR PASSENGERS OF CANCELLED FLIGHTS:

If your flight is cancelled, we wish to assure you that your current tickets are safe and remain valid. Please visit Passenger Options page for more information.

Should you need to take another RT-PCR test, you may undergo RT-PCR testing at PAL's own testing facility at PAL Gate 3 (see above information on " TAKE YOUR COVID TEST AT PAL'S TESTING FACILITIES").

FLYING SAFELY IN THE ‘NEW NORMAL’

PAL implements Fly Safe practices to protect our passengers, in compliance with international health and safety protocols.

In compliance with the Philippine Department of Health regulations and government Guidelines for Nationwide Alert Level System, all persons shall wear well-fitted face masks, if necessary, especially in public areas and enclosed spaces.

All PAL aircraft are equipped with high-technology systems that continuously infuse fresh air across the cabin as well as HEPA filters that trap viruses, bacteria and other contaminants with 99.99% efficiency. The air flow system creates a cleaner environment that is safer than most enclosed public spaces and comparable to hospital operating rooms.

Thank you.
