Kenya Airways Network YR Adjustment

Dear Travel Partner,

Effective from 4th December 2023, Kenya Airways is increasing the Fuel Surcharge (YR) tax on international and 5th Freedom sectors in both Business and Economy Cabin.

GDS will be updated to reflect the new YR from 4th December 2023 and will apply to all tickets issued **on or after 4th December 2023**.

For entirely unused tickets, if a voluntary date/route change is requested on or after 4th December, the entire itinerary will have to be re-priced and any increased YR must be collected accordingly.

All existing bookings applying the current YR surcharge and commencing travel on/after 4th December 2023 must be ticketed latest by 3rd December 2023.

Please ensure all staff are made aware of this information.
